

Crown Foods UK

Worcester / Athy, Ireland

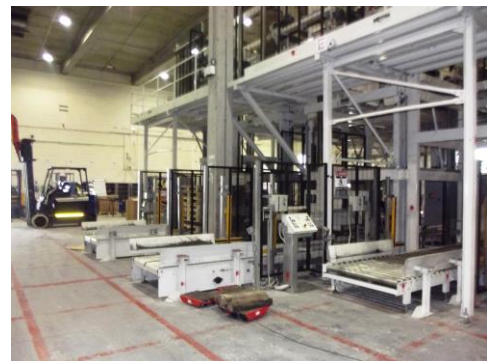

Scope of Project:

Relocation of 4 off Automatic Can Palletizers from Crown Food, Worcester to Athy, Ireland

Electrical and mechanical match-marking, dismantle of 4 fully automatic palletizer units, with can feed, conveyors at 5 metre level, and pallets at ground and high level, including automatic feed strapping and wrapping stations.

The complete palletizer structure measured 70 x 20 x 6 metres, and required 32 lorry loads of equipment to be shipped from Worcester to Athy, Ireland.

The palletizers were reinstalled mechanically and electrically within the required 12 week project period.
